Origami Dahlia

Materials:

- 6 sheets of origami paper
Tip: You can also recycle and use colourful magazines, catalogues or used gifts! Just cut them into squares.
- Double-sided tape

Did you know?

Dahlias belong to the Asteraceae family, and are native to Mexico, South America and Colombia.

Apart from having beautiful flowers, dahlias are also edible! Marketed as “dahlia yams”, they have a range of flavours and textures, though not all dahlia tubers are palatable.

Origami Dahlia

Step 6

Repeat steps 1 to 5 until you have 6 pieces, and stick all 6 pieces together to create a Dahlia.

Tada, you are done!
