

Inside a **SUSTAINABLE GARDEN**

This guided tour offers a unique insight into how Gardens by the Bay strives towards its mission of being a model of sustainable development. Explore stories of smart design, energy-efficient conservatories, renewable energy, water and waste management, and urban biodiversity, and discover how sustainability is integrated into the planning, design and day-to-day operations of the Gardens.

Journey through our beautiful outdoor gardens, Flower Dome and Cloud Forest, and learn how sustainability can be embedded across an organisation through innovation, collaboration and practical solutions. Be inspired by real-world solutions that are shaping a more sustainable and resilient future.
