Origami Rose

Materials:

- 1 sheet of origami paper
Tip: You can also recycle and use colourful magazines, catalogues or used gift wraps! Just cut them into a square.
- Double-sided tape

Did you know?

Named after the Latin word *rosa*, the rose is a flowering shrub belonging to the family Rosaceae. With over a hundred species and thousands of cultivars, its blooms vary in size and shape, and come in many different colours.

The rose hip of some species are full of vitamin C, making it the perfect ingredient for herbal teas, jams, jelly and marmalade. An oil is also extracted from the seeds, and is used widely in skincare regimes.
