Pre-registration is required at this link .	Sunday, 2 November	4.30pm to 5.30pm	Flower Field Hall in Flower Dome

Annex B

Profile of Biogirl MJ

Science teacher turned content creator Kong Man Jing, better known as Biogirl MJ, is an environmental biology graduate. She has been in the nature and sustainability industries for more than 8 years, and has worked closely with MSE, SFA, EMA, NParks and other organisations like Marina at Keppel Bay, Mandai Wildlife Reserves, City Developments Limited and ACRES on conservation and green issues. She actively engages the community through her various programmes, such as the explainer videos she produces on her social media platforms and talks and workshops for schools and the public. She has been part of the Singapore delegation at the United Nations climate conferences since COP28 in 2023, and will be leading the youths at COP30 this year.

The SG60 Comic Trail is an exclusive set of life-sized comics created with Gardens by the Bay, featuring how Singapore has upheld sustainability alongside the country's growth. It builds on MJ's award-winning comic book series, and showcases elements from Singapore's past, present and future, encouraging the next generation to do their part to ensure a sustainable Singapore.
