NEW TULIP VARIETIES AT TULIPMANIA 2026

This year's Tulipmania showcases several new tulip varieties from the Netherlands, chosen for their unique colour and form. A key highlight is *Tulipa* 'Kaki', a new cultivar officially named at the launch of Tulipmania, and a gift from the Netherlands to Singapore to symbolise the strong ties of friendship between the two countries.

	<p><i>Tulipa</i> 'Kaki'</p> <p>A new cultivar formally named at Tulipmania 2026, this tulip is a gift from the Netherlands to the people of Singapore. The name was chosen to symbolise friendship between the two nations as "kaki" means close friend in a Singapore context.</p> <p><i>Tulipa</i> 'Kaki' is a Triumph-class tulip – one of the most widely cultivated tulip varieties in the world, with stable, cup-shaped blooms. It is white with a delicate pink hue along the petals' fringe, chosen for its colours to symbolise harmony, clarity, and friendship. A cross of <i>Tulipa</i> 'First Class' and <i>Tulipa</i> 'Strong Gold', developing a new tulip cultivar like this typically takes about a decade.</p>
	<p><i>Tulipa</i> 'Pretty Princess'</p> <p>This tulip features rose-pink tepals with darker pink to purplish flamed accents and cream-margined leaves.</p>
	<p><i>Tulipa</i> 'Spryng Surprise'</p> <p>This tulip is creamy white at first, splashed with red flames that soften into pink as the flower matures.</p>
